

## Rush University Medical Center

# Cardiac Surgery

The nationally renowned cardiac surgery program at Rush offers the most advanced surgical and nonsurgical treatments for patients with a wide range of heart issues, from faulty valves to heart failure.

At Rush, your patients will be cared for by an interdisciplinary team of specialists — including some of the nation's leading cardiac surgeons — who have extensive experience and perform over 2,500 heart surgeries a year. Our dedication to providing patients with the best possible outcome is matched only by our commitment to giving patients the best possible experience.
